

Creating an organisation

The tech team at Rappt.IO can create an Organisation for you. There's no way of a user doing this themselves at the moment.

If you'd like us to setup an Organisation for you, please email support@rappt.io with this information:

- what you'd like to call your Organisation
- the Rappt.IO account email address of one person to add as the Org Admin
- one project that the above person is Administrator of, that you want added to the Organisation
