

# Creating and Opening images taken using the Rappt.IO App camera

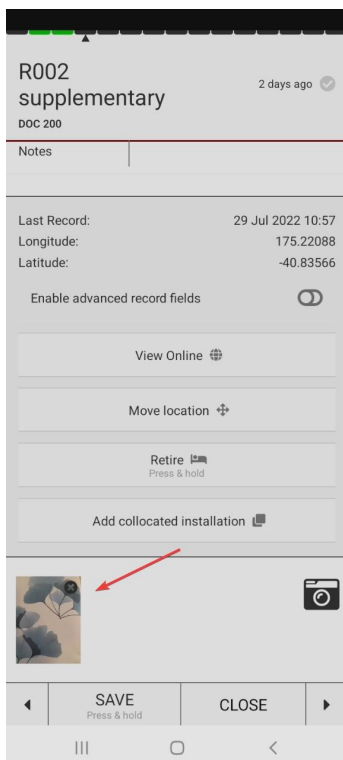

This is helpful to projects wanting a visual reference of installations or their surrounds

Projects may use images for many reasons, to show points of interest, signage, vandalism, or catches, the options are endless. The Rappt.IO App allows you to create an image for your records, that can be referred to at a later date.

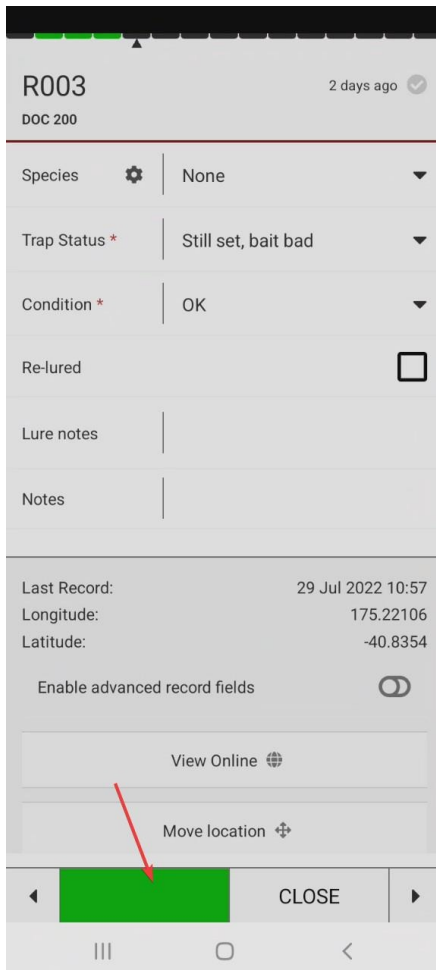

1. To create an image, use the individual installations recording page to find the camera icon and capture an image

2. Your image will display for you to review

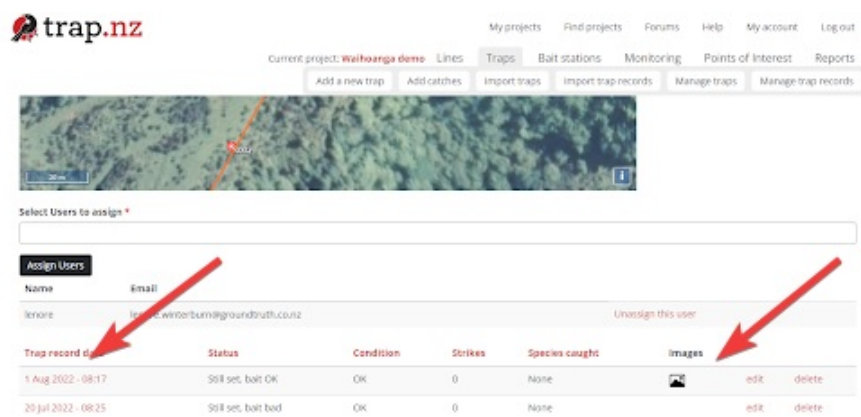

3. SAVE AND HOLD to save the image to your records

The image shows a mobile application interface for a trap record. At the top, it displays 'R003' and 'DOC 200'. Below this, there are several fields: 'Species' (set to 'None'), 'Trap Status' (set to 'Still set, bait bad'), 'Condition' (set to 'OK'), and a 'Re-lured' checkbox. There are also sections for 'Lure notes' and 'Notes'. At the bottom, it shows the 'Last Record' date and time, 'Longitude', and 'Latitude'. A red arrow points to a green button labeled 'SAVE AND HOLD' at the bottom of the screen.

Using the [Rappt.IO website](https://rappt.io) select the installation you have saved the image to and open the records for it.

4. After selecting the installation you will see the pic icon, click on this to open the recorded image

The image shows a screenshot of the trap.nz website. The top navigation bar includes links for 'My projects', 'Find projects', 'Forums', 'Help', 'My account', and 'Log out'. The current project is 'Waihoanga demo'. Below the navigation bar, there are several tabs: 'Lines', 'Traps', 'Bait stations', 'Monitoring', 'Points of Interest', and 'Reports'. A red arrow points to the 'Traps' tab. Below the tabs, there is a map showing the location of the trap. Below the map, there is a table of trap records. A red arrow points to the 'images' column in the table, which contains a small icon representing a photo. Another red arrow points to the 'edit' link next to the photo icon.

Trap record date	Status	Condition	Strikes	Species caught	Images	
1 Aug 2022 - 08:17	Still set, bait OK	OK	0	None		edit delete
29 Jul 2022 - 08:25	Still set, bait bad	OK	0	None		edit delete
