

# Deleting Supplementary traps

Supplementary traps are essentially double traps, therefore when making the decision to delete a supplementary trap you need to consider the following options.

1. Delete the supplementary trap. You will first have to delete the records associated with the supplementary trap, no longer making them available for any historic data
2. Remove the double trap, retiring it as above then replace it with a single installation to continue to collect records from that site, and still have the original installation records available for historical data
3. Remove the double trap entirely and retire the installation. This will keep the records for this installation with the site.

## Deleting a supplementary trap is completed on the Rappt.IO website

Select Manage trap records on your Rappt.IO project page

Bring up the installations you are wanting to delete and tick the ones you were wanting to remove

Select operations, delete records, and execute

Current project: **Waiheke demo** Lines Traps **Bait stations** Monitoring Points of interest Reports

Add a new trap Add catches Import traps Import trap records Manage traps Manage trap records

## Deleting the installations

On the project page, select traps and filter to open up the installations you are wanting to delete.

Number/Code	Type	Line	Installed	Tags	Last record
+ T010	AT220	gully	1 Jul 2022		
+ Tdb1 001	DOC 200	gully	4 Jul 2022		2022-07-04
+ Tdb1 002	DOC 200	gully	4 Jul 2022		2022-07-04
+ double trap	DOC 200	gully	20 Jul 2022		

Select the installation to be deleted.

Note that you need to show all traps in the table if you want to set their sort order. You can click the table column names to quickly sort alphabetically. Click "Show/hide row weights" to switch between drag & drop or manual sort numbering.

Show row weights

Number/Code	Type	Line	Installed	Tags	Last record
+ T010	AT229	gully	1 Jul 2022		
+ Tdbf 001	DOC 200	gully	4 Jul 2022		2022-07-04
+ Tdbf 002	DOC 200	gully	4 Jul 2022		2022-07-04
+ double trap	DOC 200	gully	20 Jul 2022		

Click the edit tab

This will open up the option to delete the installation at the bottom of the screen.

The screenshot shows the trap management interface with a map at the top and a form below. The form has a section titled 'Find using Manual coordinates field' with a text input field. Below this is a 'More' button. At the bottom of the form, there are three buttons: 'Save' (green), 'Delete' (red), and 'Cancel' (red). A red arrow points to the 'Delete' button. Below the buttons, there is a section titled 'Select Users to assign \*'.
