

Downloading CSV files from your project

You can download your project information to back up your project files. The download file will show in CSV format

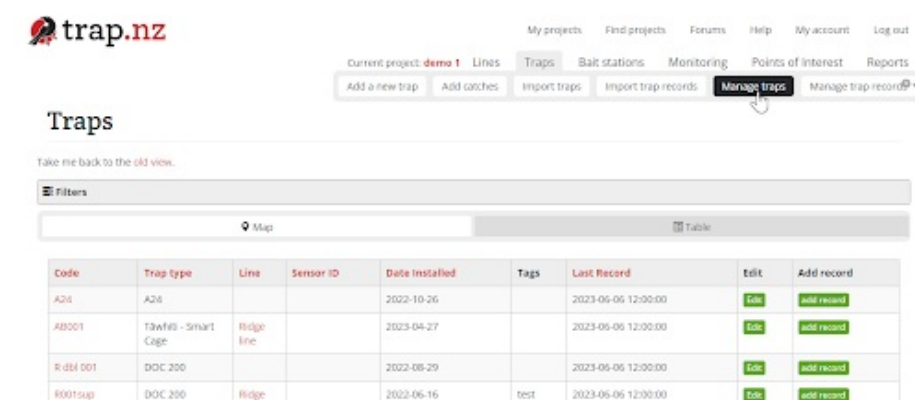

Downloading installations

To download records choose the type of installations you want the information for

Step 1 Click on the installation type

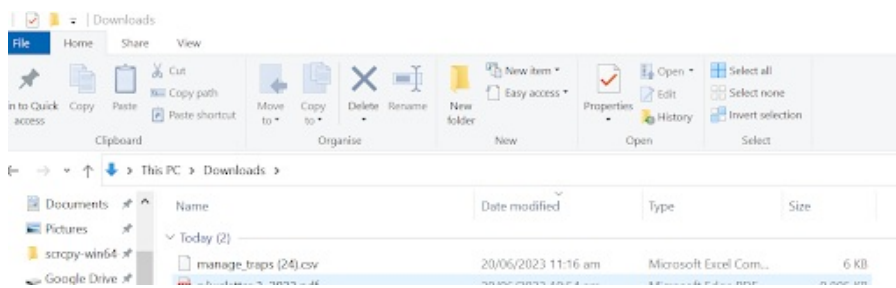

Step 2 Select the “manage “ type wanted, in this case, trap

Step 3 Scroll to the bottom of the page and click “download CSV

This download will now appear on your file menu under the downloads

To download the records attached to the installations repeat steps 1, 2, and 3, however, this time select the “manage records” tab in step 2

Code	Trap type	Line	Sensor ID	Date installed	Tags	Last Record	Edit	Add record
A24	A24			2022-10-26		2023-06-06 12:00:00	Edit	Add record
A8001	Trawliti - Smart Cage	Ridge line		2023-06-27		2023-06-06 12:00:00	Edit	Add record
R 001 001	DOC 200			2022-08-29		2023-06-06 12:00:00	Edit	Add record
