

Using Advanced field settings app

This setting allows for the option to collect more data than the standard settings while also [enabling contractor mode](#)

1. Open the settings menu on your Rappt.IO phone app and under the sub-heading Records select [Enable advanced record fields](#)

2. In the advanced field select Enable Contractor Mode

3. As you service your installations after you select the species, you will now have available to you extra fields that allow you to add maturity and sex of the catch

A screenshot of a record entry form for a species identified as 'R001'. The form includes a header with the species ID 'R001', a status 'No records' with a warning icon, and a location 'DOC 200' with a sub-location 'ridge'. The date and time '23/08/2022 13:35:00' are also displayed. The main form area contains several fields: 'Species' (set to 'Rat'), 'Sex' (set to 'Unknown'), 'Life Stage' (set to 'Adult'), and 'Condition' (set to 'OK'). There is a 'Re-lured' checkbox which is currently unchecked. Below these are text input fields for 'Lure notes' and 'Notes'. At the bottom, there is a 'Coords' field showing coordinates '-40.83530, 175.22124' and a toggle for 'Enable advanced record fields' which is turned on. A 'View Online' button with a globe icon is also present. The bottom of the screen features a navigation bar with a back arrow, a 'SAVE' button (with 'Press & hold' text), a 'CLOSE' button, and a forward arrow.
