

Using Advanced field settings app

This setting allows for the option to collect more data than the standard settings while also [enabling contractor mode](#)

1. Open the settings menu on your Rappt.IO phone app and under the sub-heading Records select [Enable advanced record fields](#)

2. In the advanced field select Enable Contractor Mode

3. As you service your installations after you select the species, you will now have available to you extra fields that allow you to add maturity and sex of the catch

The screenshot shows a data entry form for installation 'R001'. At the top, it displays 'R001' and 'No records' with a warning icon. Below this, there is a header bar with 'DOC 200' and 'ridge', and a timestamp '23/08/2022 13:35:00'. The form contains several fields: 'Species' (set to 'Rat'), 'Sex' (set to 'Unknown'), 'Life Stage' (set to 'Adult'), and 'Condition' (set to 'OK'). There is a 'Re-lured' checkbox which is currently unchecked. Below these are 'Lure notes' and 'Notes' text areas. At the bottom, there is a 'Coords' field showing '-40.83530, 175.22124' and an 'Enable advanced record fields' toggle switch which is turned on. A 'View Online' button with a globe icon is also present. At the very bottom, there are three buttons: 'SAVE' (with 'Press & hold' text), 'CLOSE', and a right arrow.
